Why Adopt From Burkina Faso?

There are approximately 980,000 Burkinabe children living without parental care in Burkina Faso, one of the poorest countries in the world. The orphan crisis in Burkina Faso has been brought about by economic crisis, pervasive poverty, disease, lack of basic

social services, and the AIDS crisis.

Burkina Faso is a West African country with more than half of its population experiencing extreme poverty. Many in Burkina Faso have little access to health and social services and face food insecurity. The rapidly growing population of Burkina Faso, of which more than half are under the age of eighteen, struggles with hunger, malnutrition, and illness, such as malaria.

It is estimated that almost half of all Burkinabe children under the age of eighteen, including children as young as five, work as laborers in the agricultural, mining, and domestic sectors. Some children work these hazardous jobs in extreme heat for six to seven days a week, up to fourteen hours per day, with only food and bed as payment. Children working as domestic servants are often at risk for physical abuse and sexual exploitation. Though adoption will not solve Burkina Faso's larger social and economic issues, it is one permanency solution that does provide children in Burkina Faso without families with the loving support and security of a family.

The Benefits of Adopting From a Hague Convention Country. Burkina Faso is a Hague Convention Country, meaning there are additional safeguards by which Burkina Faso operates to ensure adoptions are both ethical and in the best interests of the

children. Hague Convention countries tend to be more stable and predictable in processing adoptions and are less likely to be reactionary and make quick decisions that negatively impact the adoption process. Furthermore, Hague Convention Countries are more likely to have a process and procedure in place in the event the country elects to make any changes to its adoption process.

Burkina Faso's Orphanages. The orphanages in Burkina Faso, which are funded both by the government and by private donors, are generally clean and relatively well maintained. The children who reside in Burkina Faso's orphanages often have basic access to an education and medical care.

Who Are the Children in Need of Families?

- Children range in ages from infancy (at time of referral) to teens
- Both boys and girls are in need of families; gender preference may be specified
- Children are of African descent
- Children with special needs may be adopted, including those with known needs ranging from correctable to severe, children older than five years of age, and sibling groups
- Children from Burkina Faso may need to be placed in families through international adoption due to extreme poverty, lack of acceptance of unwed mothers, medical reasons where parents lack the financial resources to meet the needs of their biological children, and loss of parents due to AIDS.

Who Can Adopt From Burkina Faso?

- Married couples who have been married five years or more where one spouse is at least 30 years old and neither spouse is more than 53
- Those with less than two children in the home*
- Preference is given to childless couples
- Adoptive parents must be at least 15 years older than the adopted child

* Burkinabe law allows for a maximum of two children in the home after the placement of the adopted child(ren). If prospective adoptive parents already have one child in their home, they are not able to adopt more than one child from Burkina Faso. *This requirement can be waived if the family is adopting a child with special needs.*

How Long Does it Take to Complete the Adoption Process?

The Burkina Faso adoption process does not officially begin until the dossier has arrived in country and has been translated and stamped by the appropriate authority. The dossier preparation can take upwards of six months. The timeframe to receive a referral is approximately 12-24 months after dossier registration, depending upon the age and gender of the child the family has indicated. The process may be expedited if a family is open to an older child or a child with special needs. Referrals are given based on the date of dossier submission and balanced by several variables; characteristics of the child the family has indicated (age, gender, health status) and the children in need of families at any given time. Once the referral is accepted by the prospective adoptive parents, the adoption will take approximately 10-13 months to complete. When the adoption is complete, parents will travel to Burkina Faso to bring the child home.

Please note that timeframes may vary on a case-by-case basis and are subject to change.

What Travel is Required?

One trip of approximately two weeks spent in Burkina Faso is required. On this trip, families will be united with their child and attend multiple appointments to finalize the adoption process in Burkina Faso.

ADOPTION FEES PAID TO MLJ

When is the application fee due?

After consultation with our client intake specialist and your decision has been made to move forward with international adoption, your first step is filling out an adoption application. The application fee is due once you filled out the adoption application.

Which fees are paid to MLJ and what are they for?

The agency fees cover MLJ's cost to arrange and support family's adoption in the United States and abroad. The fees include, but are not limited to, personnel costs, administrative overhead, operational costs, staff training and education, foreign provider training and education, state, federal, and foreign licensing and accreditations, communications and insurance. Any reduction of agency fees will be at the discretion of MLJ (typically only in the event of a grant or limited time promotion), no other fees will be reduced.

What is the IAAME Monitoring & Oversight Fee?

The IAAME Monitoring & Oversight Fee is a fee paid through MLJ Adoptions to Intercountry Adoption Accreditation and Maintenance Entity (IAAME). This fee will enable IAAME to monitor and oversee international adoption agencies and is non-refundable.

How and why are the fees different depending on my state?

No matter where you live, MLJ Adoptions will be your placing agency otherwise known as your primary provider. If your family resides in a state where MLJ is licensed, MLJ will complete the home study assessment and post-adoption reporting for you. If your family resides in a state where MLJ is not licensed to provide home study services, we are not able to conduct your home study and post-adoption services directly. Your family will be responsible for obtaining home study services and required post-adoption reports from a Hague Accredited service provider within your state. MLJ will approve your home study provider and enter into a relationship with them so that we may work collaboratively with you and your provider towards the successful completion of your home study and post-adoption reporting services.

Families residing in an MLJ licensed state will add \$1,625 to their first payment for home study services and add \$1,600 to the fourth payment for four (4) post-adoption reports. Home study updates completed by MLJ, completed every twelve months, cost \$600. Families completing their home study with MLJ will be charged the standard IRS mileage rate for the miles travelled roundtrip for each home study, home study update and post-adoption visit.

Families completing a home study with a different provider should consult that provider regarding any travel cost associated with the home study, home study update or addendum, and any state or agency required home study updates and post-adoption reports. The cost of home study and post-adoption services will vary by provider. The estimated standard fee for a home study is \$2000-\$4500. The estimated standard fee for a post-adoption report is \$400-\$600 per report.

What does my education fee pay for?

The education fee pays for your access to the Hague packet which covers all the Hague training and additional classes assigned during your adoption process. This provides you free access to training. Upon review of home study, additional classes may be assigned to families based on their dynamics and where the child(ren) they are adopting from.

How do I select a home study provider if I do not live in an MLJ licensed state?

MLJ will be able to assist you in finding a Hague Accredited adoption provider located in your state. You are welcome to visit [IAAME](#) or contact us directly for assistance. It is our policy that families work with a Hague Accredited agency, unless there is no Hague agency in your state or working with a Hague agency would create a significant hardship. Agencies who pursue a Hague accreditation will typically be more experienced in intercountry adoption and will likely be better able to serve, prepare and support your family before and after your adoption.

In the event there is no Hague Accredited provider in the family's state or MLJ has otherwise agreed in writing that the family is permitted to use a non-Hague Accredited provider due to hardship, families will pay an additional \$375 fee for the required Hague letter approving a full home study and associated review. The \$375 will be due to review each new home study for families using a non-Hague Accredited provider. Additionally, families not using a Hague Accredited provider will be responsible to pay \$150 for any home study update or addendum reviews and corresponding letter that is needed.

REFUND POLICY & PAST DUE ACCOUNTS

Under what circumstances may my family be eligible to receive a refund?

If you provide a written request for a refund to Accounts@MLJAdoptions.com and also to our mailing address within ten (10) days of the initial payment, you will be reimbursed 75% of the first payment fee. The 75% reimbursement of the first payment will be refunded to Parent(s) within sixty (60) days of the request. The adoption application fee and IAAME Monitoring & Oversight fee are nonrefundable under any circumstances. MLJ Adoptions will return any paid funds for which the adoptive parent may be entitled within 60 days of the completion of delivery of services, for if the adoptive parent paid for a service that was not provided. All donations made to MLJ Adoptions are non-refundable.

What happens if a payment is late or missed?

Payments are due at time specified on the fee sheet. All payments must be made in full prior to travel for the family's trip to bring their child(ren) home.

Families with a past due balance greater than 30 days will have a hold placed on their adoption services until the account is brought current. A 1% finance charge will be assessed to all accounts more than 30 days past due, 5% for accounts more than 60 days past due, and 12% for accounts more than 90 days past due.

If it becomes necessary to pursue collection of any past due account balance through outside sources (collection agency, IN Attorney General, or local attorney) reasonable collection costs, attorney fees, court costs, and contingency fees will also be added to the outstanding balance.

As adoptions may take many months to complete, fees and costs are subject to change over the course of the adoption process.

A 3% transaction fee will be added to all credit card payments excluding application payments. A fee of \$16 will be added for each incoming wire payment.

What if my country program closes or the laws change, and my family is no longer permitted to adopt from Burkina Faso?

Payments made to MLJ Adoptions are for services rendered and are not to be considered payment for children. If your adoption is suspended due to program changes, MLJ Adoptions may at their discretion choose to credit up to \$5,000 to another country program for which the family is eligible.

In the case of country closure, parent ineligibility, contract termination, or adoption failure or adoption withdrawal, international fees that have been collected for services that have not yet been distributed abroad will be refunded.
