Why Adopt From Haiti?

Haiti is widely considered to be the most impoverished country in the western hemisphere with almost 80% of people living below the poverty line. An estimated 15% of children in Haiti are living outside of family care due to the severe lack of resources. In traveling through Haiti, it is clear that this is a country that has experienced great struggle.

Many homes and businesses are constructed of found materials and, overall, living conditions are poor. Due to the extreme poverty prevalent in Haiti, many families are unable to care for their children; fifteen percent of children in Haiti are estimated to be living outside of family care. In 2010, an earthquake devastated this already poor country, compounding the hardships faced by many Haitians and leaving even more children without families. It is estimated that the number of orphans in Haiti doubled from 380,000 to more than 750,000. This staggering number accounts for almost 7% of Haiti's population.

The Benefits of Adopting From a Hague Convention Country. Haiti is a Hague Convention Country, meaning there are additional safeguards by which Haiti operates to ensure adoptions are both ethical and in the best interests of the children.

Hague Convention Countries tend to be more stable and predictable in processing adoptions and are less likely to be reactionary and make quick decisions that negatively impact the adoption process. Furthermore, Hague Convention Countries are more likely to have a process and procedure in place in the event the country elects to make any

changes to its adoption process. Crèche's, or orphanages, where children in need of families reside must be licensed by Haiti to care for the children, and must also be licensed for international adoption. These safeguards help ensure that the children receive proper care in a safe environment while waiting to be united with their forever families.

IBESR, Haiti's central authority on adoption, matches the children with families, allowing children at all crèches a chance to be united with a family through adoption.

Who Are the Children in Need of Families?

- Children range in ages from infancy to teens
- Both boys and girls are in need of families; gender preference may be specified
- Children are of Haitian descent
- Children with special needs may be adopted, including children who are HIV positive, children older than five years old, and sibling groups
- Children from Haiti may need to be placed in families through international adoption due to extreme poverty, lack of acceptance of unwed mothers, medical reasons where parents lack the financial resources to meet the needs of their biological children, and/or cultural beliefs.

Who Can Adopt From Haiti?

- Married couples who have been married five years or more where one spouse is at least 30

years old and neither spouse is more than 50 years old

- Cohabiting couples of two different genders who have lived together for at least five years where one partner is at least 30 years old and neither spouse is more than 50 years old
- Single women and men who are older than 35 years old but not older than 50 years old
- Adoptive parents must be at least 14 years older than the adopted child
- Additional stipulations to apply for an orphan visa may be determined by a family's government if the family lives outside of the United States

How Long Does It Take to Complete the Adoption Process?

On April 1, 2014, the Hague Convention entered into force in Haiti. The transition to Hague will provide additional safeguards in the process and will ultimately make Haiti a more stable and predictable country program. The average time frame for a referral is 36-48 months. This is due to the country's travel advisory from the demonstrations.

What Travel Is Required?

Two trips (approximately two weeks each) to Haiti are required:

1. One involving an adaptation period where prospective adoptive parents will be united with the child and visited by a social worker; and
2. One to bring the child home.

Why Choose MLJ Adoptions to Adopt From Haiti?

Approved In Haiti. MLJ Adoptions, a Hague Accredited adoption service provider, is approved to work in Haiti and to provide adoption services under Haiti's new Hague guidelines.

Currently Accepting Applications for New Families. Haiti has implemented new procedures for adoption, including the dossier submission procedure. It is the dossier submission in Haiti that starts the adoption process and wait time for the country to conduct the matching process. Every adoption service provider approved to provide adoption services in Haiti is permitted to submit only two dossiers per month. This means that, effectively,

only 24 families per year per adoption service provider can be registered to adopt. MLJ Adoptions does not have a backlog of dossiers to submit, at this time, we have additional dossiers that we are able to submit on behalf of families.

Experienced and Compassionate Staff. Our MLJ Adoptions' foreign and domestic teams are composed of a diverse group of professionals who are committed to supporting families before, during and after adoption. Families wishing to adopt from Haiti will primarily work with Sonja Brown, one of MLJ Adoptions' Program Directors. Sonja Brown, has ten years of experience in adoption, and has united more than 200 children with their forever families.

Furthermore, MLJ Adoptions retains licensed attorneys domestically and works with a Haitian attorney. It is beneficial to families to have attorneys in both the United States and Haiti reviewing and assisting with the legal processes of adoption.

First Payment

ADOPTION FEES PAID TO MLJ

When is the application fee due?

After consultation with our client intake specialist and your decision has been made to move forward with international adoption, your first step is filling out an adoption application. The application fee is due once you filled out the adoption application.

Which fees are paid to MLJ and what are they for?

The agency fees cover MLJ's cost to arrange and support family's adoption in the United States and abroad. The fees include, but are not limited to, personnel costs, administrative overhead, operational costs, staff training and education, foreign provider training and education, state, federal, and foreign licensing and accreditations, communications and insurance. Any reduction of agency fees will be at the discretion of MLJ (typically only in the event of a grant or limited time promotion), no other fees will be reduced.

What is the IAAME Monitoring & Oversight Fee?

The IAAME Monitoring & Oversight Fee is a fee paid through MLJ Adoptions to Intercountry Adoption Accreditation and Maintenance Entity (IAAME). This fee will enable IAAME to monitor and oversee international adoption agencies and is non-refundable.

How and why are the fees different depending on my state?

No matter where you live, MLJ Adoptions will be your placing agency otherwise known as your primary provider. If your family resides in a state where MLJ is licensed, MLJ will complete the home study assessment and post-adoption reporting for you. If your family resides in a state where MLJ is not licensed to provide home study services, we are not able to conduct your home study and post-adoption services directly. Your family will be responsible for obtaining home study services and required post-adoption reports from a Hague Accredited service provider within your state. MLJ will approve your home study provider and enter into a relationship with them so that we may work collaboratively with you and your provider towards the successful completion of your home study and post-adoption reporting services.

Families residing in an MLJ licensed state will add \$1,625 to their first payment for home study services and add \$4,050 to the fourth payment for nine (9) post-adoption reports. Home study updates completed by MLJ, completed every twelve months, cost \$600. Families completing

their home study with MLJ will be charged the standard IRS mileage rate for the miles travelled roundtrip for each home study, home study update and post-adoption visit.

Families completing a home study with a different provider should consult that provider regarding any travel cost associated with the home study, home study update or addendum, and any state or agency required home study updates and post-adoption reports. The cost of home study and post-adoption services will vary by provider. The estimated standard fee for a home study is \$2000-\$4500. The estimated standard fee for a post-adoption report is \$400-\$600 per report.

What does my education fee pay for?

The education fee pays for your access to the Hague packet which covers all the Hague training and additional classes assigned during your adoption process. This provides you free access to training. Upon review of home study, additional classes may be assigned to families based on their dynamics and where the child(ren) they are adopting from.

How do I select a home study provider if I do not live in an MLJ licensed state?

MLJ will be able to assist you in finding a Hague Accredited adoption provider located in your state. You are welcome to visit the [IAAME](#) or contact us directly for assistance. It is our policy that families work with a Hague Accredited agency, unless there is no Hague agency in your state or working with a Hague agency would create a significant hardship. Agencies who pursue a Hague accreditation will typically be more experienced in intercountry adoption and will likely be better able to serve, prepare and support your family before and after your adoption.

In the event there is no Hague Accredited provider in the family's state or MLJ has otherwise agreed in writing that the family is permitted to use a non-Hague Accredited provider due to hardship, families will pay an additional \$375 fee for the required Hague letter approving a full home study and associated review. The \$375 will be due to review each new home study for families using a non-Hague Accredited provider. Additionally, families not using a Hague Accredited provider will be responsible to pay \$150 for any home study update or addendum reviews and corresponding letter that is needed.

REFUND POLICY & PAST DUE ACCOUNTS

Under what circumstances may my family be eligible to receive a refund?

If you provide a written request for a refund to Accounts@MLJAdoptions.com and also to our mailing address within ten (10) days of the initial payment, you will be reimbursed 75% of the first payment fee. The 75% reimbursement of the first payment will be refunded to Parent(s) within sixty (60) days of the request. The adoption application fee and IAAME Monitoring & Oversight fee are nonrefundable under any circumstances. MLJ Adoptions will return any paid funds for which the adoptive parent may be entitled within 60 days of the completion of delivery of services, for if the adoptive parent paid for a service that was not provided. All donations made to MLJ Adoptions are non-refundable.

What happens if a payment is late or missed?

Payments are due at time specified on the fee sheet. All payments must be made in full prior to travel for the family's trip to bring their child(ren) home.

Families with a past due balance greater than 30 days will have a hold placed on their adoption services until the account is brought current. A 1% finance charge will be assessed to all accounts more than 30 days past due, 5% for accounts more than 60 days past due, and 12% for accounts more than 90 days past due.

If it becomes necessary to pursue collection of any past due account balance through outside sources (collection agency, IN Attorney General, or local attorney) reasonable collection costs, attorney fees, court costs, and contingency fees will also be added to the outstanding balance.

As adoptions may take many months to complete, fees and costs are subject to change over the course of the adoption process.

Second Payment

Which fees are paid to MLJ and what are they for?

Any reduction of agency fees will be at the discretion of MLJ (typically only in the event of a grant or limited time promotion), no other fees will be reduced.

What is being provided for my dossier assistance and review?

The fees paid towards dossier assistance and review include fees associated with support provided to assist the adoptive parents with the gathering of dossier documents required by the country, providing instruction on obtaining the correct documents, apostilling and certifying instructions and review of the dossier documents to ensure compliance with the country's requirements and specifications for the dossier prior to submission to the country. What are the requirements related to post-adoption reporting for Haiti?

MLJ requires a post adoption report one month after date of placement. Haiti requires that adoptive parents provide post-adoption reports for a period of up to eight years. This series of up to nine (9) reports is designed to show the evolution and integration of the child within his/her adoptive family and environment. They are due at the following time intervals: six (6) months after the child's arrival with his/her adoptive family, then at the 12 months/1-year mark, then annually for 7 consecutive years. However, the reporting requirements end when the child turns 18. The last five reports may be completed by an entity other than your authorized adoption service provider, and can be submitted directly to IBESR by the adoptive parents. If you do not live in an MLJ licensed state, your home study agency or state may require additional post adoption reports. Country requirements are subject to change without notice. Families expressly agree to comply with all required post-adoption reporting requirements.

How do I get my \$500 post-adoption deposit back?

The post-adoption deposit will be placed in an escrow account and will be returned upon the successful and timely completion of all required post-adoption reports submitted within two years after placement, the re-adoption or finalization of foreign adoption decree within family's state of residence and proof of receipt of the child's certificate of citizenship. The re-adoption or finalization and the certificate of citizenship must be completed and submitted to MLJ on or before the date of the last required post-adoption report necessary to receive the post-adoption deposit.
